24 Hour Race - The Run against Human Trafficking

Taylor’s Schools was the proud Platinum Partner Sponsor for the 24 Hour Race that took place in Nexus International School, Putrajaya last weekend. We hosted the Malaysia’s First 24 Hour Race organized by Running To Stop the Trafficking (RTST), a youth-run organization which consist of talented, committed and compassionate youths who had one vision in mind: a world free from trafficking and modern day slavery.

Groups of students from various international schools including Nexus International School and Garden International School formed teams and ran a continuous relay for 24 hours. They were sponsored for every lap they ran, raising funds and awareness to benefit anti-slavery charities. From its humble beginnings, the race has grown from a fundraising event to address slavery, to an event which empowers young people to feel they can truly make a difference.

Conducted concurrently with the races in Singapore and Hong Kong (which started in 2010), over 250 runners from various schools in Klang Valley participated. These students ran a total of 6,027km for 24 hours non-stop, which is equivalent to the distance from Malaysia to Dubai.

“The proceeds of the race will be channeled to anti-trafficking NGOs and divided based on a project-by-project basis,” said event organizer and A-level student at Garden International School, Kasumi Higewake.

All the beneficiaries from this event are involved in prevention and rehabilitation work for human trafficking victims in Malaysia, Nepal, Northern India and Cambodia.

We would like to congratulate all the runners, marshal volunteers, parents and teachers who participated and contributed to this race.
