Scholarship to John Hopkins University (USA) awarded to Teh Wen Wen of Nexus International School, Putrajaya

Nexus International School would like to congratulate all of our learners who will be embarking on the next stage of their studies at the varsity level. We have learners travelling across the globe, including the UK, USA, Canada, and Australia, as well as some staying on to study in Malaysian Universities. A special mention has to be given to Teh Wen Wen, who has secured a scholarship from the Malaysian Public Service Department to study Neuroscience at John Hopkins University (USA).

John Hopkins is a global leader in this field, ranked 7th in the world (4th in the USA), in the Clinical, Pre-clinical and Health category (Times Higher Education) and is a notoriously hard institution to gain entrance into.

The staff at Nexus would like to wish Wen Wen and all of the graduating class 2014 the best of luck in their future undertakings.
